Please Note: Procurement, purchasing and delivery coordination are not included within this service. All selected pieces are to be purchased and arranged directly by the client.

OUR PROCESS

A refined and seamless design experience, thoughtfully guiding you through every stage with clarity and ease.

Introduction & Onboarding

The design journey begins with you. A simple conversation shapes the vision and direction for your home.

Concept Development

From our first conversation, we shape your vision into a considered concept through moodboards, palettes and initial sketches.

Design Development

Your concept comes to life as we refine each detail, material and finish into a beautifully considered interior.

Documentation

Your design is carefully documented, translating every considered detail into clear drawings and schedules ready for construction.

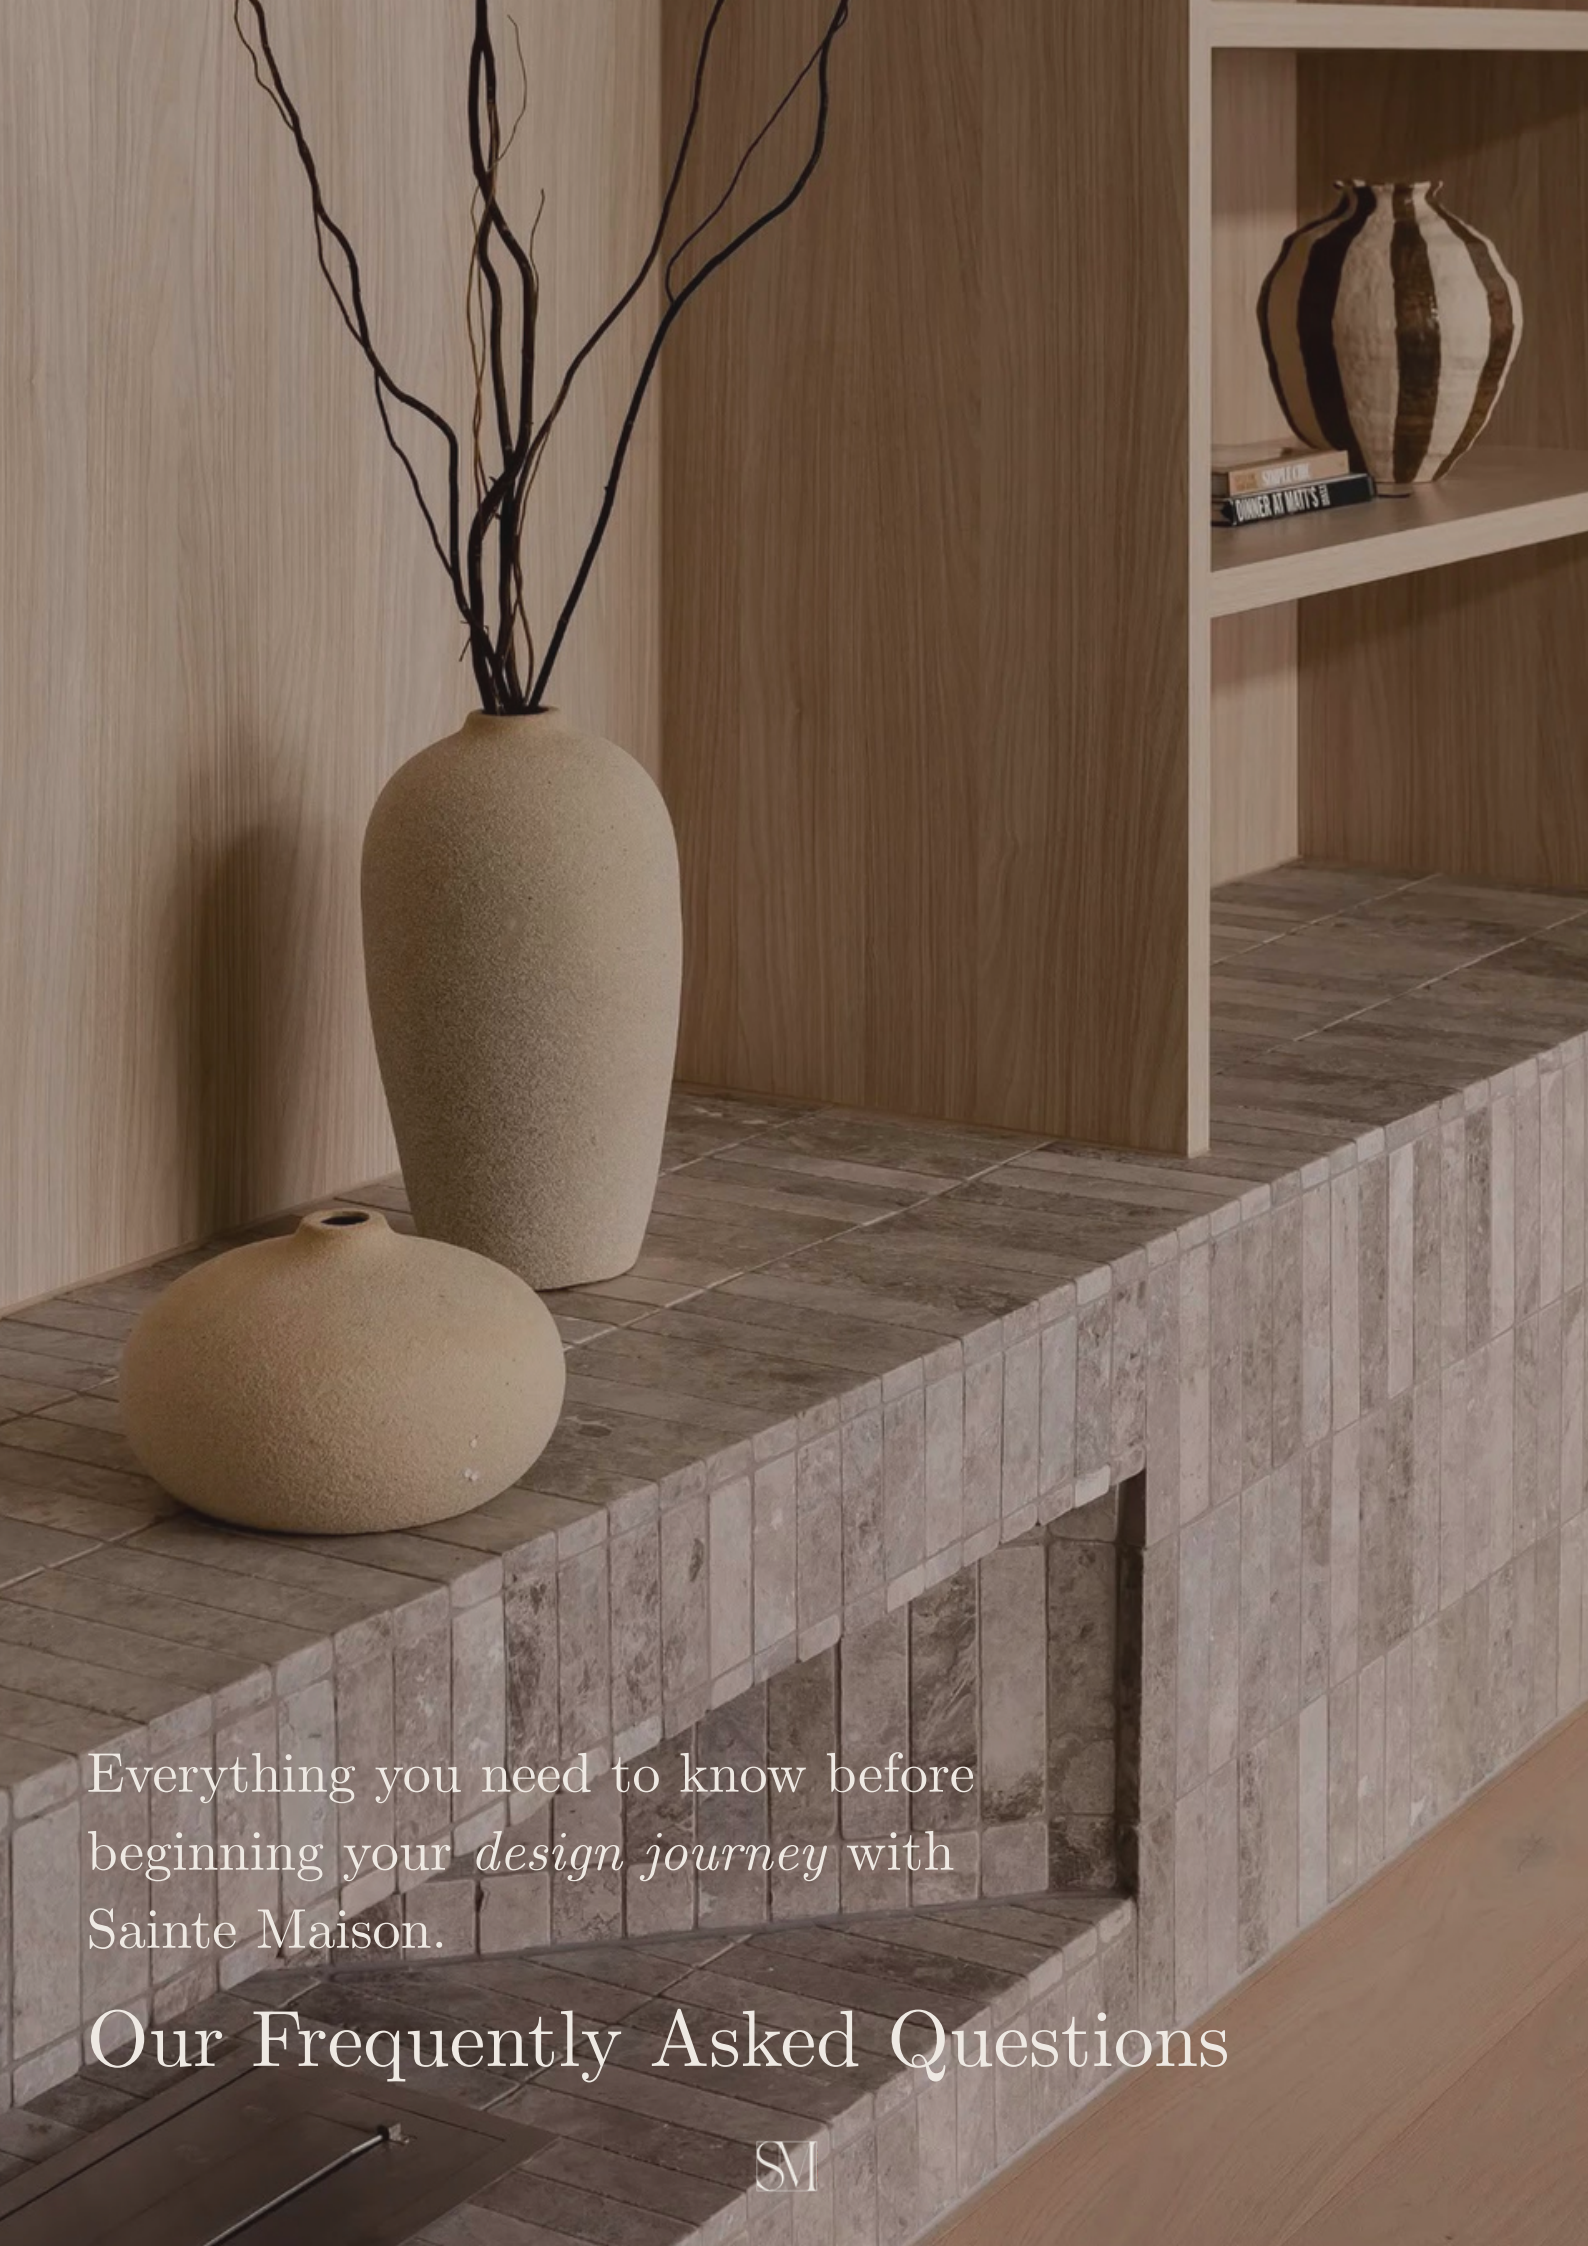

Furniture Curation

Optional Add-On
The finishing layer, thoughtfully curating furniture, art and styling to complete your interiors.

Construction Support

We remain by your side throughout construction, providing guidance and design support to ensure your vision is beautifully brought to life.

Everything you need to know before
beginning your *design journey* with
Sainte Maison.

Our Frequently Asked Questions

When should I engage Sainte Maison?

Ideally, as early as possible. We recommend engaging us around the same time as your architect, allowing the architecture and interiors to be thoughtfully considered together from the very beginning.

Do you work alongside my architect?

Yes. We work collaboratively alongside your chosen architect, allowing the architecture and interiors to be thoughtfully considered together throughout the design process.

Do you design for renovations & restorative homes?

Not at this stage. Our current focus is exclusively on new-build residential interiors, allowing us to thoughtfully shape each space from the very beginning.

Do you offer furniture curation or property styling as a standalone service?

Our Furniture Curation & Styling service is available for residential homes; however, we do not currently offer property styling or staging for real estate sales.

Do you purchase furniture on my behalf?

No. We provide the complete furniture and styling curation, including schedules and product details; however, purchasing, procurement and delivery are arranged directly by the client.

Do you project manage construction?

No. Sainte Maison does not provide construction or project management services. We offer Construction Support, working alongside your chosen builder and trades to provide design guidance and help maintain the integrity of the approved interior vision.

Do you work with my builder and trades?

Yes. Where Construction Support is included, we remain available throughout the build to provide design clarification and help maintain the integrity of the approved design.

Do you organise trades & suppliers during construction?

We do not engage, appoint or manage trades and suppliers during construction. Where required, we are happy to recommend trusted professionals; however, all appointments, scheduling, coordination and payments are managed directly by you or your builder.

Do your drawings replace builder or trade drawings?

Our documentation communicates the approved interior design intent. All construction requirements, dimensions and technical details are to be reviewed and confirmed by the builder and relevant licensed trades prior to construction.

How does communication work throughout the project?

Clear and considered communication is at the heart of our process. We guide you through each stage with scheduled meetings, design presentations and regular updates, ensuring you always feel informed and involved throughout your design journey.

What is the process to get started?

It begins with a simple enquiry. From there, we'll arrange an initial conversation to learn more about you, your project and your vision. Following this, we'll recommend the most suitable service and provide a tailored proposal outlining the scope, inclusions and investment.

Do you require a deposit?

Yes. A deposit is required to secure your project and commence the design process. The deposit amount and payment schedule will be clearly outlined within your tailored proposal.

How long does the design process take?

Our design process typically takes 3–6 months, depending on the scope and complexity of your project. This timeframe is an estimate only and may extend where additional design development, revisions or project requirements arise.
